1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product Identity: Dimethyl Sulfoxide (DMSO)
Alternate Names: Enviro S, dimethyl sulphoxide, methyl sulfoxide, sulfinylbis [methane]

1.2. Relevant identified uses of the substance or mixture and uses advised against
Intended use: Solvent for manufacture of pharmaceuticals, fine chemicals and polymers
Application Method: See Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet
Company Name: Gaylord Chemical Company, LLC
P. O. Box 1209
Slidell, LA 70459-1209

Emergency
CHEMTREC (USA) (800) 424-9300
Customer Service: Gaylord Chemical Company, LLC (985) 649-5464 (8:00am - 5:00pm CST)
(205) 342-0652 (Nights and Weekends)

2. Hazard identification of the product

2.1. Classification of the substance or mixture
Combustible Liquid; H227
Skin Irrit. 2; H315 Causes skin irritation.
Eye Irrit. 2; H319 Causes serious eye irritation.

2.2. Label elements
Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

GHS Label Pictogram
Signal Word: Warning
**Warning**

H227 Combustible liquid.
H315 Causes skin irritation.
H319 Causes serious eye irritation.

[**Prevention**]:
P210 Keep away from heat / sparks / open flames / hot surfaces - No smoking.
P264 Wash thoroughly after handling.
P280 Wear protective gloves / eye protection / face protection.

[**Response**]:
P302+352 IF ON SKIN: Wash with plenty of soap and water.
P305+351+338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.
P321 Specific treatment (see information on this label).
P337+313 If eye irritation persists: Get medical advice / attention.
P362 Take off contaminated clothing and wash before reuse.

[**Storage**]:
P403+235 Store in a well ventilated place. Keep cool.

[**Disposal**]:
P501 Dispose of contents / container in accordance with local / national regulations.

2.3 **Hazards not otherwise classified (HNOC) or not covered by GHS** - none

### 3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

<table>
<thead>
<tr>
<th>Ingredient/Chemical Designations</th>

</table>

[1] Substance classified with a health or environmental hazard.

*The full texts of the phrases are shown in Section 16.*

### 4. First aid measures

4.1. **Description of first aid measures**

**General**

In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person. In general, DMSO is not
dangerous to people, but like any other chemical, it should be treated with care, respect and common sense.

**Inhalation**
Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

**Eyes**
Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

**Skin**
Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

**Ingestion**
If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

---

### 4.2. Most important symptoms and effects, both acute and delayed

<table>
<thead>
<tr>
<th><strong>Overview</strong></th>
<th><strong>EFFECTS OF OVEREXPOSURE:</strong> General</th>
<th>DMSO has shown very few toxic symptoms in humans. The most common are nausea, skin rashes and an unusual garlic-onion-oyster smell on body and breath. Inhalation: High vapor concentrations may cause headache, dizziness, and sedation. Eyes: Low hazard for usual industrial/commercial handling by trained personnel. Skin: Stinging and burning of the skin as well as rashes and vesicles have been seen. A heat reaction may occur if applied to wet skin. Avoid contact with DMSO solutions containing toxic material or materials whose toxicological properties are not known. DMSO easily penetrates the skin and may enhance the rate of skin absorption of skin-permeable substances. But because of DMSO’s low toxicity and its inability to carry less-permeable substances with it through the skin, it can be concluded that DMSO does not pose a significant threat by skin absorption. Ingestion: A low ingestion hazard. See section 2 for further details.</th>
</tr>
</thead>

### 5. Fire-fighting measures

**5.1. Extinguishing media**
Recommended extinguishing media; alcohol resistant foam, CO₂, powder, water spray.

**5.2. Special hazards arising from the substance or mixture**
Hazardous decomposition: Sulfur dioxide, formaldehyde, methyl mercaptan, dimethyl sulfide, dimethyl disulfide, and bis (methylthio) methane.
Keep away from heat / sparks / open flames / hot surfaces - No smoking.

**5.3. Advice for fire-fighters**
Special Exposure Hazards: Burning dimethyl sulfoxide produces poisonous gases (sulfur oxides). Wear rubber gloves, SCBA, and rubber suit.
Wear positive pressure, self-contained breathing apparatus, (SCBA) with a full facepiece and protective clothing. Persons without respiratory protection should leave area. Wear SCBA during clean-up immediately after fire. No smoking.

**ERG Guide No.** 128
6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
In case of mist formation use a respirator of self-contained breathing apparatus (SCBA). Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions
Do not allow spills to enter drains or waterways.
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up
If a spill or leak occurs, immediately consult your environmental supervisor. Remove ignition sources. Ventilate the area. Do not breathe the vapor or get liquid in eyes or on skin/clothing.
Dilute and flush to wastewater treatment or absorb with inert material. Do not allow the material to enter streams or waterways.

7. Handling and storage

7.1. Precautions for safe handling
Keep away from sources of ignition. No smoking. Do not breathe vapor or mist. Avoid contact with skin, eyes, or clothing.
Store in accordance with the National Fire Protection Association's publication NFPA 30, Flammable and Combustible Liquids Code. 29 CFR 1910.106 applies to the handling, storage, and use of flammable and combustible liquids.
See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities
Keep container tightly closed, in a well-ventilated place. Freezes (solidifies) at 18°C (64°F).
Store in a cool dry area, away from heat, sparks and open flame. Keep containers sealed when not in use. Store out of direct sunlight.
Prolonged heating above 150°C (302°F) can cause rapid, exothermic decomposition.
Incompatible materials: Organic and inorganic acid chlorides, strong oxidizing agents, alkali metals, hydrobromic acid, acidic solutions of alkali bromides.
See section 2 for further details. - [Storage]:

7.3. Specific end use(s)
No data available.

8. Exposure controls and personal protection

8.1. Control parameters

<table>

<td>OSHA</td>
<td>No Established Limit</td>
</tr>
<tr>
<td></td>
<td></td>
<td>ACGIH</td>
<td>No Established Limit</td>
</tr>
</tbody>
</table>
8.2. Exposure controls

Respiratory
In case of mist formation use a respirator. Respirator type: organic vapor cartridge, SCBA or SAR. If respirators are used, a program should be instituted to assure compliance with OSHA standard 29 CFR 1910.134

Eyes
Safety glasses with side shield, tight-fitting goggles or face shield.

Skin
Butyl rubber or nitrile (NBR) rubber gloves. Rubber apron and boots if splash hazard.

Engineering Controls
Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

9.2. Other information
No other relevant information.

## 10. Stability and reactivity

### 10.1. Reactivity
Hazardous Polymerization will not occur.

### 10.2. Chemical stability
Stable under normal circumstances.

### 10.3. Possibility of hazardous reactions
No data available.

### 10.4. Conditions to avoid
Prolonged heating above 150°C (302°F) can cause rapid, exothermic decomposition.

### 10.5. Incompatible materials
Organic and inorganic acid chlorides, strong oxidizing agents, alkali metals, hydrobromic acid, acidic solutions of alkali bromides.

### 10.6. Hazardous decomposition products
Sulfur dioxide, formaldehyde, methyl mercaptan, dimethyl sulfide, dimethyl disulfide, and bis (methylthio) methane.

## 11. Toxicological information

### Acute toxicity

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

12.2. Persistence and degradability
There is no data available on the preparation itself.

12.3. Bioaccumulative potential
Not Measured

12.4. Mobility in soil
No data available.

12.5. Results of PBT and vPvB assessment
This product contains no PBT/vPvB chemicals.

12.6. Other adverse effects
Biological Oxygen Demand:
Theoretical Oxygen Demand at 10 ppm: 123mg oxygen
Chemical Oxygen Demand at 10ppm: 107 mg/L
Biological Oxygen Demand-5 at 10 ppm: ≤ 1.0 mg/L

13. Disposal considerations

13.1. Waste treatment methods
Observe all federal, state and local regulations when disposing of this substance.
### 14. Transport information

### 15. Regulatory information

**Regulatory Overview**
The regulatory data in Section 15 is not intended to be all-inclusive, only selected regulations are represented.

**Toxic Substance Control Act (TSCA)**
All components of this material are either listed or exempt from listing on the TSCA Inventory.

**WHMIS Classification**
- B3
- D2B

**US EPA Tier II Hazards**
- Fire: Yes
- Sudden Release of Pressure: No
- Reactive: No
- Immediate (Acute): Yes
- Delayed (Chronic): No

**EPCRA 311/312 Chemicals and RQs:**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**EPCRA 302 Extremely Hazardous:**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**EPCRA 313 Toxic Chemicals:**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**Proposition 65 - Carcinogens (>0.0%):**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**Proposition 65 - Developmental Toxins (>0.0%):**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**Proposition 65 - Female Repro Toxins (>0.0%):**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

**Proposition 65 - Male Repro Toxins (>0.0%):**
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.
N.J. RTK Substances (>1%):
  Methane, sulfinylbis-

Penn RTK Substances (>1%):
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

16. Other information

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind, expressed or implied, is made with respect to the information contained herein. We accept no responsibility and disclaim all liability for any harmful effects which may be caused by exposure to our products. Customers/users of this product must comply with all applicable health and safety laws, regulations, and orders.

The full text of the phrases appearing in section 3 is:
H315 Causes skin irritation.
H319 Causes serious eye irritation.

Revision Log
Revision Date: 01/06/2016
Changes made for new revision:
No changes to content. Annual review and updated revision number only.

The information contained herein is furnished without warranty of any kind. Users should consider these data only as a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of this material and the safety and health of employees and customers and the protection of the environment. To the best of our knowledge the facts given are correct. However the information is given without warranty as to its accuracy.
